Objective

Goal-oriented and meticulous MERN stack developer with a special interest in AIML, looking for a demanding position that leverages my technical proficiency, leadership background (Lead Organizer, Sangram Sports Fest 2025), and drive for providing quality solutions.

Experience

- **Code Alpha** June 2025 - July 2025
  Web developer intern
  Developed a Todo
  - Developed a simple yet effective To-Do App using the MERN (MongoDB, Express, React, Node.js).
  - Implemented CRUD operations
  - Integrated user authentication
  - Developed RESTful API
  - Created responsive UI

  - Coordinated tasks, set deadlines, and ensured timely completion of the project.

- **TechnoHack solution pvt ltd.** January-2025 - February-2025
  C / CPP developer
  Developed, tested, and designed DSA-based solutions, optimizing problem-solving ability and coding speed

Education

- **University of engineering and management** 2023-2027
  B.tech
  8

- **Patha Bhavan kolkata** 2021-2023
  HS
  7

- **Jagriti Vidyapeeth High School** 2021
  Secondary
  8

Skills

- Programming languages: C & C++,Python,JavaScript
- Computer software/ frameworks: Express,js, React.js, Flask, Django
- Database: MongoDB, SQL
- Tools: Chatgpt,VScode,Git and Github, Google collab

Projects

- **Basic To-do (https://to-do-frontend-roan-phi.vercel.app/)**
  - Built a full-stack To-Do app using MERN.
  - Features: User login/logout, task CRUD operations.
  - Implemented auth using [mention auth method, e.g., JWT].
- **Bharat Tradition (https://traditionalfrontend.vercel.app)**
  - Sells traditional products from across India
  - Features: product listing, cart, payments, user auth.
  -Tech: MERN (MongoDB, Express, React, Node.js)
- **AuraMail - Online Certificate Distribution Platform(https://ismartashish.github.io/AuraMailer)**
  - Built with MERN & AI, AuraMail automates bulk certificate generation & distribution.
  - Features: Upload CSV/Excel with data, customize templates, auto-send certs via user's email.

- Current Limitation: Lacks history tracking of distributed certificates.

- **ATS Resume Analyzer (https://ismartashish.github.io/ATSResume_frontend)**
  -Developed a full-stack ATS Resume Analyzer using React (Vite) and FastAPI to evaluate resume–job description compatibility.
  -Implemented resume parsing, keyword extraction, and skill gap analysis to generate ATS scores and highlight missing skills.

Languages

- Hindi English Bengali Maithli Bhojpuri
